

Re: USGS access to O&G production/injection database

Jill Dean to: Art McGarr

02/16/2012 11:17 AM

Hi Art,

I've got some info on access to the EPA oil and gas production database. Licensing prevents us from giving you the dataset on a DVD, but you would have the ability to download the data on a limited geographic basis. (So if you downloaded several smaller datasets, then eventually you would have the entire dataset.)

If you have any problems with the link below or downloads, let me know.

Thanks!

Jill,

When you meet with them, it would be good to find out whether they are only interested in a download of all the data we have, or whether they want to use existing or planned tools that we have built. As Allison says, the transfer of the data set is probably not possible, we do have some online capabilities that exist and that we are building that allow us to share searching features. They can get at the Knowledge Base already via this link -> http://www.epa-otis.gov/knowledge_base/oilandgas/ As they appear to be targeting a fairly small area - they can probably pull what they need from that link.

Hi Jill,

At this time USGS can access OTIS to view and download some of information from the Knowledge Base but due to contract limitations, we can not give the dataset to USGS. Please let me know if you have additional questions.

Thanks,
Allison

Presentation for Montly Update : USGS-EPA IA

Jill Dean to: Art McGarr

02/16/2012 11:10 AM

Hi Art,

Just in case you have problems getting the presentation file off the meeting invite, I'm attaching the presentation to this email, too. I spoke with Steve Walter earlier this week about the webinar and he didn't have any problems using our software.

Calendar Entry

Type: Meeting

☐ Mark Private
☐ Mark Available

Subject: Montly Update: USGS-EPA IA

When:

Starts:	Thu 02/16/2012	04:00 PM	Local time	
Ends:	Thu 02/16/2012	05:00 PM	Local time	1 hour

Who:

Required:	Ken-E Johnson/R6/USEPA/US@EPA, mcgarr@usgs.gov, Nancy Dorsey/R6/USEPA/US@EPA, Philip Dellinger/R6/USEPA/US@EPA, Robert-Eu Smith/DC/USEPA/US@EPA, Susie McKenzie/R6/USEPA/US@EPA
Optional:	Bruce Kobelski/DC/USEPA/US@EPA, Suzanne Kelly/DC/USEPA/US@EPA
FYI:	Ronald Bergman/DC/USEPA/US@EPA

Where:

Location: 1-866-299-3188; code 2025648241#; ROOM 2123

Description

USGS_seismicity 021511.pdf

We're trying a webinar format for this meeting using EPA's new web conferencing software, Adobe Connect.

The URL for the webinar is

<https://epa.connectsolutions.com/seismicity/>

USGS folks, please sign in as a guest to the webinar.

HPDI oil & gas database documentation

Jill Dean to: Art McGarr

02/09/2012 09:46 AM

Hi Art,

Forwarding the documentation for the HPDI database. My office does not hold the license for the database so I'm checking with them on how we might be able to share the data with USGS. Since we both have oil and gas databases from different vendors, it would be beneficial to both agencies if we pooled our resources. There may be license limitations (on our end, anyway) since the database is commercial. I wonder if we might be able to use the shale gas research MOU between DOE, DOI and EPA as a way to open up some of the data sharing options... I'll look into it if we have some licensing issues. It may be that the license overrides any interagency agreements that are in place.

Thanks,

briefing on UIC authorities

Jill Dean to: Art McGarr

02/02/2012 12:51 PM

Hi Art,

Time has gotten away from me a bit in planning the briefing on UIC authorities. What do you think of including the presentation in our monthly call on 2/16. We could extend the meeting by half hour -- either start at 330 pm EST instead of 4 pm or end the meeting at 530 pm EST instead of 5 pm. Or we could try to get through the ppt and the normal updates in the hour we already have allotted.

Let me know what you think,

Thanks,

Jill Dean
